Did You Know:

- Unused or expired prescription medications are a public safety hazard and can lead to accidental poisoning, overdose, and abuse.
- Over-the-counter and doctor prescribed medications can be just as dangerous as street drugs when taken without a prescription or a doctor's supervision.
- Older adults may fall victim to medication theft by addicted caregivers or family members, or even to strangers hunting for their next high.
- Unused prescription drugs thrown in the trash can be retrieved and abused or illegally sold.
- Unused drugs that are flushed down the drain can contaminate our environment and water supply.
