How you can use the Medicine Cabinet Inventory

- List all prescriptions, including over-the-counter medications.
- Include the date of purchase and quantity.
- Include recommended dosage. Never increase or decrease doses without talking to your doctor.
- Keep all medications out of reach of all young children and adolescents.
- To properly dispose of unused or expired medications, dispose of medications in a community drop box site or mix them with used cat litter, coffee grounds or sawdust to make them less appealing, before throwing them in the garbage.
