ALLEGANY CO. JAIL

7PM TUESDAYS - For inmates only. Encourage incarcerated family members and friends to attend Celebrate Recovery Inside while you learn how to assist them through a group on the outside.

Celebrate Recovery is an international year-around ministry for individuals struggling with any type of hurt, hangup, habit or destructive behavior, including common addictions.

This free Christ-centered support ministry started over 25 years ago at Saddleback Church in California, pastored by Rick Warren, author of the long-time best-selling book, *Purpose Driven Life*. It uses a 12 Steps-8 Principles approach that provides an opportunity for healing from what may reflect a lifetime of personal struggles. All adults are welcome to attend because Celebrate Recovery is for everyone, including family members and friends of those who are struggling.

Vibrant music, alternating weekly teachings or personal testimonies, and gender-specific small groups are conducted in caring, non-judgmental settings, providing critical support from life's issues for both men and women.
